

### Radiated Measurement Photos

The image shows a laboratory setup on a blue table. A tablet is connected to a power supply unit (PSU) and a motor. A keyboard and mouse are also connected to the tablet. The PSU and motor are placed on the floor next to the table. The motor is a small, white, cylindrical device with a black shaft. The PSU is a silver, rectangular unit with various ports and a fan. Cables connect the tablet to the PSU and the motor. The background is a plain, light-colored wall.
